THE COMPANY

Genus Dei S.r.l. is the market leader and benchmark in **foodservice equipment**. Its philosophy is synonymous with quality and this makes it unique in the industry. The company is always ready to offer its customers innovative solutions making available its team of specialized technicians.

The firm opened its plant in 2008 as a producer of **polypropylene trays**. These are created with the aim of satisfying the most demanding clients and offering characteristics that are singular in their kind.

The trays are produced in different sizes and in more than 30 customizable colors that are ideal for any type of use.

The experience acquired over the years allowed **Genus Dei S.r.l.** to expand its range of products using new methods of distribution and production. Today, it also offers advanced solutions for washing glasses and dishes with its **racks**.

With their extensibility in height, they can be adapted to any type of glass and the colored tops allow to distinguish clearly the content. Also useful for storing and handling, the racks combine high performance with ease of use.

Continually working to develop new ideas, **Genus Dei S.r.l.** has leveraged its advancement in the foodservice business by offering a new line of **pizza dough cases** in which to place the pizza dough. These are ideal for keeping cool the mixture and carry it easily.

The main objective of the company was, and still is, to produce and provide customers with products that will last, that are safe and practical to use.

All items are entirely made in Italy.

They are made of polypropylene certified for food contact and meet the requirements of European regulations.
